in-school Chocolate Field Trip

Yes, it's really true! Chocolate is on the National Curriculum and Coeur de Xocolat can bring chocolate events, lessons and classes to your school.

Teachers, already know, many primary schools have chosen chocolate as part of their National Curriculum studies, and children are learning about chocolate through the early years, usually 1-6.

As part of their studies, children will learn about the history of chocolate, and chocolate production from bean to bar, which covers subjects including citizenship, geography, history, and science.

They may also study 'Roald Dahl and Charlie and the Chocolate Factory' as part of an English programme.

Having worked for over ten years for a Fairtrade chocolate company, we proactively support Fairtrade-so it follows that we only use Fairtrade chocolate in all educational chocolate workshops.
